# 11<sup>th</sup> ACMLT

11<sup>th</sup> ASEAN CONFERENCE IN MEDICAL LABORATORY TECHNOLOGY

May 23- 26, 2006 JOGJAKARTA

# Welcome Address

On behalf of the Organizing Committee, I have the honour and pleasure to invite you to the 11th ASEAN Conference in Medical Laboratory Technology (ACMLT) to be held on May 23-26, 2006 in Jogjakarta, Indonesia.

It is a good time to have new insight on the vital role that laboratory technologists play in health care today. It is important that we take personal pride in the significant role the laboratory medicine plays in the diagnosis and treatment of patients. The laboratory professional have to provide laboratory services, whether we be associated with the hospital laboratory, the outpatient laboratory, the reference laboratory, or with the in vitro diagnostics industry that produces the technology, come to grips with this challenge and begin to take a proactive approach to increasing the visibility of laboratory tests, laboratory professionals and educating the public about the value of our profession to health care.

The 11th ACMLT will share many kinds of information in laboratory medicine, from the research to the practice, from scientific topics to management topics. I believe that this congress will contribute towards upgrading the role of medical laboratories professionals in the region.

The Industrial Exhibition will be an important part of the Conference. The in vitro diagnostics industries will bring forward information on the state-of-the-art technology in laboratory medicine techniques.

The social programs will be a wonderful opportunity to know and touch closer to the unique combination of the Indonesian traditional and modern culture.

I warmly invite you to share and enjoy together a stimulating scientific programs and the beauty of the Royal Sultanate of Jogjakarta.

***Dewi Muliaty***

*Chairman of the 11th ACMLT*

# Welcome Address

Dear Colleagues,

It is my pleasure to extend to you a warm invitation to attend the 11th AAMLT Conference, which will be held in Jogjakarta, Indonesia during 23-26 May 2006. The conference will be hosted by The Indonesian Association of Health Laboratory Technologists (PATELKI) under the auspice of ASEAN Association of Medical Laboratory Technologists.

This conference will provide a forum where participants can meet, discuss, and present the most recent advances in medical laboratory sciences and technology. Through networking and friendships, which will be formed during the conference, we can work together towards our common goals to attain the excellence for our profession and the well being of mankind. Apart from the scientific sessions, the conference venue, Jogjakarta, has a wealth of fascinating history and a diverse and exciting arts tradition. The combination of scientific knowledge and cultural heritage as well as a natural charm of Indonesian hospitality will make this conference a fruitful and a memorable event for you.

Looking forward to seeing all of you in Jogjakarta.

***Assoc. Prof. Rachana Santiyanont, Ph.D***

*President of AAMLT*

## OPENING CEREMONY

Opening ceremony will be held at Jogja Expo Centre (JEC) on Tuesday, May 23, 2006

## WELCOME RECEPTION

May 23, 2006

The Keraton is the palace of the Jogjakarta Sultan that symbolized all the ancient Javanese beliefs. It is the official residence of the ruling Sultan since the seventeen century. It was built in accordance to the ancient Javanese beliefs which influenced by Hinduism and Islam. Art and music lived in the very heart of the Javanese culture in forms of dance, shadow puppet show and gamelan music orchestra. Official welcome dinner to the 11th ACMLT participants will be held in the Keraton and to be hosted by the Sultan of Jogjakarta who is also the Jogjakarta governor.

## CULTURAL NIGHT

May 24, 2006.

With its breathtaking view of Prambanan temple, one of the important Hindu temples, as the stage background, the colossal dance of Ramayana is performed, especially during the full moon evenings. Started since early 60s, the performance tells the epical love story Prince Rama and Shinta in traditional Javanese dance with spectacular special effects. Especially adapted for the 11th ACMLT event, the performance will be followed by AAMLT cultural show.

# Jogjakarta

## CITY HIGHLIGHT

Jogjakarta in the 16th and 17th centuries was the seat of The Mighty of Javanese Empire of Mataram and has inherited the best traditions and with a still - functioning Royal palace and with a sultanate is still under the jurisdiction of Sultan Hamengku Buwono X. Jogja is one of three Special Districts of Indonesia. Jogja is also the undisputed cultural capital of Java and Home of Gajah Mada University and the country's premier Fine Arts Academy. Jogja is one of the foremost cultural central of Java and becomes a centre of Dance, Music, painting. Located in the surrounding of hillsides and plains scattered awe-inspiring stone temples, at the foot of the Active Volcano Mount Merapi, and a thriving artistic community. Jogja has a special, gentle charm, which seldom fails to captivate the visitors.

## GEOGRAPHICALLY

Jogjakarta was founded by Prince Mangkubumi in 1755. The Prince was then called Sri Sultan Hamengku Buwono I. This province is very unique. It is one of 32 provinces in Indonesia, which lies in the middle of south central Java. 2.9 million people live in 318.518 hectare acres.

Jogjakarta is a centre of culture, tradition and art like traditional foods, silver handy craft, painting, statue, and one of the greatness temples of the world. Now Jogjakarta is second destination for tourism after Bali. The people living here are not just Javanese, but also Indonesian from all part of the country are attracted by lively artistic and intellectual life. They came to study or to work. The cosmopolitan air of Jogjakarta grows days by day with the floating inhabitants of foreign tourist and residents. There are many beautiful places in Jogjakarta like Sultanate Palace, Borobudur Temple, Prambanan Temple and of course the famous street Malioboro.

## SULTANATE PALACE

In the middle of the city stands the magnificent Palace or Kraton Ngayogyakarta Hadinigrat. This Kraton was built in 1756; the architect was Sultan Hamengku Buwono I, the first King of Jogjakarta. The present Sultan Hamengku Buwono X is currently also the governor to the special religion.

## PRAMBANAN TEMPLES

Prambanan is a beautiful and fertile region. In ancient time, it was the place where the capital of the Sanjaya kingdom. This was clarified in the inscription of Raja Balitung from the year of AD 907. Raja Balitung's inscription mentions the pedigree of the kings who reigned in that period. It was the period when the Sanjaya dynasty reigned. Their religion was Hinduism.

Prambanan temple as it is known now days, is a name given to the complex of several sanctuaries of Siwa. In fact, it is more accurate to call it Siwa's temple (candi Siwa) according to real character of the temples. One of many cultural activities performs in several venues, as Prambanan is a fascinating Ramayana Ballet performance. It is colossal live presentation with the backdrop of grandiose Prambanan Temple; two hours ballet is presented alternately in Jogjakarta and Solo dance style by five dance troupes led by Sri Paku Alam VIII. Formerly, the performance was organized only for dates under full moon, but now the show is held every evening from the month of May to October. The open area offers the complete ballet, while the closed stage present different acts only.

## BOROBUDUR TEMPLES

Borobudur is one of the best-preserved ancient monuments in the world and it is listed as the World Wonder Heritage. The monument is the biggest Buddhist temple of the world and it had been acclaimed as a world cultural heritage that are the most frequently visited by over a million domestic as well as by foreign visitors up to now. The architectural style has no equal thought out the world. The inspired structure representing the micro cosmos which have very often given risen to question e.g. when, in what way, during how long time and by whom the sanctuary had been built.

The right answer up to now remain a mystery since no written documents had been found so far. Based on the brief inscription most scholars notified that Borobudur was built around 8th century when Samatungga - King of Cailendra Dynasty ruled Central Java. The remaining of Borobudur remains vague. It is compound of words Bara and Budur. Bara from Sankrit has meaning of complex of the temples or monasteries. While Budur reminds us the Balinese word Beduhur, which means above. Accordingly, Borobudur means monastery on the hill.

Borobudur is full of philosophical ornaments in which it is completely symbolizing the unity in diversity of part that can be followed to reach to reach the ultimate aim of life. The relief's engrave on the wall of the temple tell about the beautiful learning of life. In other words, Borobudur is the soul of art, culture and philosophy.
